FIELDHOLD · SATELLITE + CELLULAR

FIELDHOLD TWO · Satellite + Cellular

Two paths in one sealed case. Starlink Mini and an integrated enterprise cellular router, 5G-capable, switch automatically, with firewall, VPN and VLAN support. One cellular path, configured for your network. The case stays closed.

BUILT FOR

01 **Incident command and mutual aid**
A network at the post when towers are down or saturated, brought up by whoever arrived first.

02 **Remote and greenfield jobsites**
Broadband on site the day the trailer lands, without a carrier install or a service address.

03 **Live production and broadcast**
A path that does not collapse when the crowd arrives and saturates the venue network.

04 **Energy, mining and remote industrial**
SCADA, telemetry and safety systems stay reachable without a truck roll to a dead site.

UPGRADES

- Dual 99Wh battery pack, hot-swap and TSA carry-on compliant
- IP68 enclosure upgrade
- Starlink installation service, fitting a customer-supplied Mini
- Cellular service through HiveCatcher: three carriers with automatic switching, or bring your own SIM
- Wi-Fi 6 upgrade, dual-band, router compatibility confirmed at quote

ORDERING

Priced by quote. Configure at **fieldhold.com/configure**, then request a quote from the summary. A person reviews shipping, tax and terms and replies within 24 hours.

No Starlink terminal is included.

Supply your own Starlink Mini, or we fit it as a service.
